

ISOPE-2012 Rhodes (Rodos)
Frontier Energy Resources Technology (FERT)
Symposium
First CALL FOR PAPERS

The 22nd International Offshore and Polar Engineering Conference
Rhodes (Rodos), Greece, June 17 - 22, 2012

ISOPE Symposium on Frontier Energy Resources Technology (FERT) will focus on the technologies relating to a range of energy sources, including unconventional hydrocarbon resources and sources other than fossil fuels. These sources are gaining a great attention, span a wide range of origin and, like fossil fuels, are also not evenly distributed around the world. Technology challenges in commercializing these resources are also different. The purpose of this symposium to provide a timely forum to provide the state-of-the-art knowledge in the business outlook and technology in the development of these resources. The symposium is envisioned to consist of prominent speakers who are leading authorities in the respective fields to discuss the status, issues and challenges in the various types of Frontier Energy Resources.

Suggested Topics:

- Frontier Gas
- Clean Coal
- Heavy Oil
- Gas Hydrates
- Geothermal

Key Dates

Abstracts Due: **November 15**, 2011
Manuscript for Review: January 20, 2012
Final Manuscript Due: March 24, 2012

Special ISOPE room rate at 5-star Rodos Palace Hotel starts from €84 /night.
