Subsea Pipeline Riser Symposium (SPRS-2016)

Subsea, Umbilicals, Risers and Flowlines — *Technology & Projects*

On behalf of the symposium organizing committee, we invite experts to the *1st ISOPE SPRS Symposium*. In response to recent developments of deepwater- and ultra-deepwater subsea fields, advancement of technology to support deepwater subsea operations, the *SPRS Symposium - 2016* is being organized through collaboration of efforts among research organizations and industry. The symposium deals with wide range of related topics.

Special ISOPE room rate at 5-star hotel starts from €94/night.

Topics of Interest

- Deepwater and Artic Pipeline System
- Deepwater, Ultra Deepwater Riser System and HPHT Application
- Challenges in Deepwater Subsea Development
- Umbilical System, Flexible Pipe, Composite Pipe and Bonded Flexible Pipe
- Materials, Mechanics, Sour Service and Design of Pipeline and Riser
- Integrity Management, Safety & Reliability, and Operational Lessons Learned
- Advanced Engineering, Reliability Design, Lateral and Upheaval Buckling, Pipeline Soil Interaction
- Decommissioning and Field Life Extension
- Geo-Hazards and Pipeline Seismic Engineering
- Vortex Induced Vibration and Mitigation, Galloping and Slugging Induced Vibration
- Project Experiences & Lessons Learned
- Field Development Concept Optimization
