

MiniExhibit at ISOPE-2018 Conference Application Form

<http://www.isopec.org/conferences/conferences.htm>

Since 1992, the annual ISOPE conference has been the world's largest technical conference of its kind with peer-reviewed papers. Proceedings are indexed by Engineering Index, Compendex, Scopus, Thomson ISTP, Chemical Abstracts and more. Following the all-time record-breaking attendance at ISOPE-2007 Lisbon, the conference continued setting new records, receiving 1,700+ abstracts for ISOPE-2015 Hawaii. The conference is being organized by the Technical Program Committee (TPC) of the International Society of Offshore and Polar Engineers (ISOPE) with 30 cooperating organizations. Its objective is to provide a timely international forum for researchers and engineers. Papers will be peer-reviewed with some 1,300+ abstracts selected for the 2018 Conference.

The International Society of Ocean and Polar Engineering will celebrate its 28th year of service to the **Ocean, Arctic and Energy engineering communities** at the upcoming ISOPE Conference and Exhibition at Royton Sapporo Hotel, June 10-15, Sapporo, Japan.

The annual ISOPE conference is a major international forum for expert engineers from the industry, governments, and academia to exchange a wide range of technological issues such as in design, operation and new materials vital to the exploration and development of ocean, wind and arctic resources. For the 2018 conference, we expect participants from 50+ countries with an estimated attendance exceeding 1000+.

Technical Program on <http://www.isopec.org/conferences/conferences.htm>

This year's technical program offers a spectrum of topics of current interest, from R & D to practical design and operations including the topical technical sessions described below:

- *Offshore/Subsea Design, Installation and Control Simulation, Hydrodynamics, CFD, MPS, NWT, Sloshing Simulation, Tsunami, Coastal Waves, Environment,*
- *LNG Transport/Storage, FLNG, Underwater Propulsion, Navigation and Control Simulation*
- *Ocean Energy and Offshore Wind Turbine Design and Simulation, Energy Storage/Conversion*
- *Arctic and Cryogenic Materials, High Performance Materials,*
- *Subsea Pipeline Technology, Umbilicals, Design/Installation, Asset Integrity, Materials Reliability.*

MiniExhibit at heavy traffic hallway

The ISOPE conference provides you with the opportunity to exhibit your technologies at the tabletop mini-exhibition and interact with conference participants. Software simulation, small hardware, instrumentation and photo displays of large hardware are welcome.

The exhibit table is complimentary to ISOPE Corporate members. *The first-come-first-served!*
