

MiniExhibit at ISOPE-2017 Conference Application Form

<http://www.isopec.org/conferences/conferences.htm>

Since 1992, the annual ISOPE conference has been the world's largest technical conference of its kind with peer-reviewed papers. Proceedings are indexed by Engineering Index, Compendex, Scopus, Web of Science, Chemical Abstracts and more. Following the all-time record-breaking attendance since ISOPE-2007 Lisbon, the conference continued setting new records, receiving 1,700+ abstracts for ISOPE-2015 Hawaii. The conference is being organized by the Technical Program Committee (TPC) of the International Society of Offshore and Polar Engineers (ISOPE) with 30 cooperating organizations. Its objective is to provide a timely international forum for researchers and engineers. Papers will be peer-reviewed with some 1,300+ abstracts selected for 2017 Conference.

The International Society of Ocean and Polar Engineering will celebrate its 27th year of service to the **ocean, arctic and energy engineering community** at the upcoming ISOPE Conference and Exhibition at Hyatt Regency Hotel SFO.

The annual ISOPE conference is vital to experts and engineers from industry, governments, and academia. It brings them together to discuss a wide range of high-level technological issues pertinent to the exploration and development of our ocean, wind and arctic resources. For the 2017 conference, we expect participants from 52 countries with an estimated attendance exceeding 900+.

Technical Program on <http://www.isopec.org/conferences/conferences.htm>

This year's technical program offers a spectrum of topics of current interest, from R & D to practical design and operations including the topical technical sessions described below:

- *Ocean Technology and Computer Simulation, Hydrodynamics, CFD, MPS, NWT, Sloshing Simulation, Tsunami, Coastal Waves, Environment,*
- *Underwater Control Simulation, and Advanced Propulsion and Performance Simulation*
- *Ocean Energy and Offshore Wind Turbine Simulation, Energy Storage/Conversion*
- *Arctic and Cryogenic Materials, High Performance Materials, Subsea*
- *Pipeline Technology, Cables and Umbilicals, Strain-Based Design, Asset Integrity, Materials Reliability.*

MiniExhibit at heavy traffic hallway

The ISOPE conference provides you with the opportunity to exhibit your technologies at the tabletop mini-exhibition and interact with conference participants. Software simulation, small hardware, instrumentation and photo displays of large hardware are welcome.

The exhibit table is complimentary to ISOPE Corporate members. ***The first-come-first-served!***
