

7th Tsunami and Safety Symposium at ISOPE-2018:

Sapporo, Japan, June 10–15, 2018

First

Call for Papers

Covering the devastating coastal hazards such as the 2011 Japanese Tsunami, the 2010 Chilean Tsunami and the 2004 Sumatra Tsunami, the first **Tsunami and Safety Symposium** was successfully organized and held during the annual ISOPE conference, discussing future disaster mitigation measures over the world and the challenges being faced by the scientific and engineering communities. The symposium provided a timely platform to present the recent research findings and to share experiences with other leading worldwide researchers in this field.

In 2018, we hold the 7th **Tsunami and Safety Symposium** as part of the annual ISOPE-2018 Conference.

ISOPE invites you to submit an abstract to the ISOPE-2018 **Tsunami and Safety Symposium**.

Suggested Technical Topics

The following topics are equally important but not extensive. Relevant papers of good quality are all welcome:

- Tsunami Generation and Propagation Process
- Tsunami Detection by Deepwater Seabed Sensors and Buoys and Radar
- Comprehensive Simulation Model for Tsunami Runup, Deformation of Structures, Scouring, Drift and Oil Diffusion
- Experimental and Numerical Methods on Tsunami, Long Waves
- Coastal Hydrodynamic and Geotechnical Issues Caused by Earthquake and Subsequent Tsunami
- Potential Highest Tsunami and Resilient Coastal Community
- AI and IoT Technologies for Disaster Prevention/Mitigation Measures
- Tsunami Nearshore Transformation and Flooding on Land
- Post-Event Problems (i.e. tidal flooding, landslide, floating debris, etc.)

All papers accepted upon peer-review will be published in ISOPE conference proceedings indexed by Engineering Index, EI (Compendex), Scopus, Thomson ISTP, Google Scholar and more. High-quality papers may be selected for further review for publication on The *International Journal of Offshore and Polar Engineering*, indexed by Science Citation Index- E.

Key Dates

Abstract due: 20 October 2017 Manuscript for Review: 15 January 2018

Final Manuscript Due: 24 March 2018

Special ISOPE room rates start from \$80-145 /night.

Submit *online* at <http://www.isopec.org/call4papers/2018/HowToSubmitAbstractOnline.htm> with ‘Tsunami’ being in the ‘invited by’ box: General Topic Hydrodynamics; primary 54 Tsunami, secondary 54 Tsunami.

Or email abstracts to meetings@isopec.org with topic keyword ‘ISOPE-2018 Tsunami’ in your e-mail **subject line**, or to the SOC members below.

Abstracts must include the contact author’s full postal address, telephone and fax numbers, and e-mail address to facilitate communications. Other information about ISOPE-2018 can be found at <http://www.isopec.org>.

Symposium Organizing Committee (SOC)

Dr. Hiroyasu Kawai, PARI, National Institute of Maritime, Port and Aviation Technology, Japan; isopekawai@yahoo.co.jp

Mr. K. Honda, National Institute for Land and Infrastructure Management, Japan; honda-k852a@mlit.go.jp

Prof. T. Hiraishi, Kyoto University, Japan; hiraishi.tetsuya.2c@kyoto-u.ac.jp

Prof. Jin S Chung, ISOPE, USA, jschung@isopec.org

Prof. S Grilli, University of Rhode Island, USA, grilli@oce.uri.edu

Dr. Naoyuki Inukai, Nagaoka University of Technology, Japan; inu@nagaokaut.ac.jp

Prof. Hua Liu, Shanghai Jiao Tong University, China; hliu@sjtu.edu.cn

Prof. T Komai, Tohoku University, Japan, komai@mail.kankyo.tohoku.ac.jp

Dr. Eva Loukogeorgaki, Aristotle University of Thessaloniki, Greece eloukog@civil.auth.gr

Prof. K. Murali, Indian Institute of Technology Madras, India, murali@iitm.ac.in

Prof. S. Yan, City University London, UK; s.yan@city.ac.uk
