

ISOPE-2019 Conference, Hawaii, June 16-21 Geotechnical Engineering Sessions

First Call For Papers

We invite the colleagues to submit high-quality original papers to the ISOPE-2019 geotechnical engineering sessions. The growing focus on energy exploration and production activities in harsh environments including Arctic, deepwater and seismically active regions has raised the need for deep understanding of geotechnical challenges as well innovative solutions to these challenges.

Special ISOPE room rate at 5-star ISOPE hotel in Honolulu starts from \$199/night and up.

Topics in

Offshore Foundation, Piles, and Anchor	Soil–Pipe Interactions
Foundations for Renewable Energy Structures	Computational Modeling, Simulation
Innovative Foundation Solutions	Physical/Centrifuge Modeling
Reliability of Offshore Foundation	Soil Properties and Mechanics
Geomechanics; Scour Assessment	Testing and Instrumentation
Soil-Structure-Fluid Interactions	Ground Improvement
Geohazards, Liquefaction, Mitigation	Permafrost

Key Deadlines

Abstract:	20 October 2018
Manuscript for Review:	15 January 2019
Final Manuscript:	24 March 2019

Interested authors should send abstracts to one of the organizing committee members or submit online at

<http://www.isopec.org/index.php/online-submission/>

Include **the name of the inviter**. The abstracts MUST include the contact author's postal address, telephone and fax numbers, and e-mail address to facilitate communications. Update on ISOPE-2018 will be posted at

<http://www.isopec.org/index.php/conferences-symposia-and-workshops/>

All papers accepted upon manuscript peer-review will be published in ISOPE conference proceedings indexed by Thomson **ISTP**, Engineering Index (EI), Fluidex, Scopus and more. Some Conference papers are asked to update for further review for publication in International Journal of Offshore and Polar Engineering, indexed by SCI-E, Web of Science.
