ISOPE Scholarship for Outstanding Students

For 2019–2020 School Year

Application Deadline: April 15, 2019

The **International Society of Offshore and Polar Engineers (ISOPE)** encourage students to study and/or to conduct research in any of **Offshore Mechanics, Ocean, Arctic, and Related Engineering** fields, or to participate in the annual ISOPE Conferences. For this purpose, ISOPE grants scholarships of **\$1,000 or equivalent each** to outstanding graduate students and entering new graduate students for the academic year **2019–2020**. **Three to five scholarships** were granted each year. The recipients are encouraged to join the ISOPE student membership.

Each scholarship offered is a competitive one. Sex, race, age, religion, nationality, etc. are not factors for consideration. The awardees are selected by the ISOPE Award Committee vote. The committee members are balanced in geopolitical distribution. No more than one scholarship shall be awarded in the same year to the applicants from one university. Those students who will earn the PhD degree by July 2019 are not eligible.

To apply, **email** the following information in **electronic files** to **info@isope.org**, the ISOPE Awards Committee, 495 North Whisman Road, Suite 300, California 94043-5711, USA.

(1) An official graduate school transcript for current graduate students, **or** the official undergraduate transcript for graduate students who didn't complete 2 semesters and for entering graduate students; (2) a letter of recommendation from the thesis supervising faculty, department chairperson, or any ISOPE member directly to **info@isope.org**, and (3) an application form.

To get **application forms**, **download** from ISOPE's website: **www.isope.org > Students**.

Past Award recipients were graduate students at

USA - Massachusetts Institute of Technology, Colorado School of Mines, Stanford University, University of Texas at Austin; University of California at Berkeley, University of Hawaii at Manoa, Virginia Polytechnic Institute & State University, South Dakota School of Mines, University of New Orleans, Texas A&M University, University of Maine: **CANADA** - University of Calgary, Memorial University of Newfoundland, University of British Columbia:

GERMANY - Karlsruhe University: **GREECE** - Aristotle University of Thessaloniki: **RUSSIA** - Far-Eastern State Technical University: **UKRAINE** - Ukrainian State Maritime Tech University: **INDIA** - Indian Institute of Technology Madras, Indian Institute of Technology Bombay: **IRELAND** - **ITALY** - University 'Mediterranean' of Reggio Calabria: **NETHERLANDS** - Delft University of Technology: **NORWAY** - University of Stavanger: **UK** - University of New Castle Upon Tyne, University of Strathclyde, University of Oxford, Imperial College London, University of Southampton: **IRELAND** - National University of Ireland:

AUSTRALIA - Monash University: University of Western Australia, Griffith University - Gold Coast Campus, Curtin University of Technology: **CHINA** - Dalian University of Technology: Indian Institute of Technology Madras; Indian Institute of Technology Bombay; **KOREA** - Korea Maritime and Ocean University, Seoul National University; Inha University, University of Incheon, Hong-Ik University: **TAIWAN** **China** - National Cheng Kung University: **JAPAN** - University of Tokyo, Saga University, Osaka Sangyo University; Yokohama National University; Osaka University, Saitama University, Nagoya University: **SINGAPORE** - National University of Singapore.

ISOPE holds the *Annual International Offshore and Polar Engineering Conferences (ISOPE)* (with annual conference proceedings peer-reviewed papers in 2,500–5,800 pages), and specialty and regional symposia with active graduate student participation. Its technical program has been the world's largest of its kind with peer-reviewed papers. ISOPE also publishes its principal periodical, Quarterly *International Journal of Offshore and Polar Engineering, SCI-E*.
