

CALL FOR PAPERS

The 30th Annual International Ocean and Polar Engineering Conference

Shanghai, China, June 14–19, 2020

The 11th Renewable Energy & Environment Symposium

On behalf of the symposium organizing committee, we invite experts to the 11th ISOPE Renewable Energy & Environment Symposium. In response to growing attention to green energy and growing sessions on offshore wind, wave, tidal, biomass energy, CCS and environment at the ISOPE conferences, ISOPE continues building a framework to expand these sessions and network by holding a full symposium. The 11th Symposium is being organized through collaboration of efforts among university, research organization and industry.

Special ISOPE room rate starts from \$110 /night.

Suggested Technical Topics

- **Offshore Wind Turbines and Wind Farms:** Verification, Validation, Test, Measurements, Control, Simulation, Optimization, Structural Design, Reliability, Lifetime Extension, Installation, Operation, Fixed and Floating Structures, Foundation, Combined/Hybrid systems
- **Wave/Current/Tidal Energy Converters:** Numerical and experimental modeling, Device development and testing, Power take-off and control, Shape Optimization, Arrays, Structural Design
