

MiniExhibit at ISOPE-2020 Conference Application Form
<http://www.isopec.org/index.php/conferences-symposia-and-workshops/>

Since 1992, the annual ISOPE conference has been the world's largest technical conference of its kind with peer-reviewed papers. Following an all-time record-breaking attendance at ISOPE-2007 Lisbon, the conference continues to trailblaze, recording 1,700+ abstracts for ISOPE-2015 Hawaii. Organized by the Technical Program Committee of the International Society of Offshore and Polar Engineers (ISOPE), the conference joins forces with 30 other organizations globally. Proceedings are indexed by a number of prominent, high-profile databases.

The International Society of Ocean and Polar Engineering will celebrate its 30th year of service to the **Ocean, Arctic and Energy engineering communities** at the upcoming ISOPE Conference and Exhibition at Shanghai International Convention Center, Shanghai, China, June 14–19, 2020

The annual ISOPE conference is a major international forum for expert engineers from industry, government, and academia to exchange a wide range of technological issues vital to exploring and developing ocean, wind, and arctic resources. In 2020, we expect participants from 50+ countries with estimated attendance exceeding 1000+.
